Development log activities;

- Demo version 0.2 game and development log published on Monday, Aug 29, 2022 on itch.io

WORK EXPERIENCE

2022 - **Indie Game Developer**

Development activities;

- Create 2D-3D games in different types with Unity
- Publish on itch.io and GitHub

2020 - **EduTech - Boğaziçi University Education and Technology Community, President From 2022**

Development activities;

- Build a website
- Build a simulation
 - Published on itch.io
 - Published on Boun-Edutech GitHub and my GitHub
- Arrange social media accounts and other accounts
- Prepare an introduction video for the new EduTech administration
- Arrange and plan events and talks

Member From 2020

Development activities;

- Proposed club logo design
- Proposed club activities' poster design

2017 - 2018 **COMPEC - Boğaziçi University Informatics Club, Team member**

Responsibility;

- Corresponded with Airbar firm for Techsummit 18
- Provided registration and guided people
- Guided people in the Insider Firm Tour and took photos

INTERNSHIP

Sept 2016 - Nov 2016 **Yıldız Teknik University, Intern** (3 Month Full Time)

Internship under the control of Assistant Professor Doctor Ziya Cihan Tayşi

Responsibility;

- Arranged cable of laboratory

Development activities;

- Designed a plan for a laboratory in Adobe Fireworks

VOLUNTEER EXPERIENCE

2022 - **Ted Talks Translator, Translator**

Development activities;

- Translate Ted Talks videos as a volunteer
- A youtube playlist to reach TED videos that I translated on my website

2022 - **Not Tutuyoruz,**

Editor From 2022

Development activities;

- Checking blogs written English

Content Writer From 2022

Development activities;

- Publish blogs about different topics on Medium

CERTIFICATIONS

2022 Boğaziçi University Alumni Association (BUMED) Mentor-Mentee Program

2022 One Month Learn Product Management

2022 One Month Learn Content Marketing

2022 One Month Learn Project Management

MEMBERSHIP

2020 – **Boğaziçi University Education and Technology Community (Edutech),**
Team Member From 2020 and President From 2022

2020 – **Boğaziçi University Atletizm Club,** Team Member in Shot Put

2017 – 2018 **Boğaziçi University Informatics Club (COMPEC),** Team Member

BLOG PUBLICATIONS

2022 **Creating University Network System In Cisco Packet Tracer,** Instruction

- Optimize university network topologies and imitate modern computer networks.
- Stimulate the topology in Cisco Packet Tracer
- Collaborate to document our strategy

- Published on Blogger, Medium, and Patika Dev
- 2022 **Energy plan for German, Sustainability**
- Systematized energy optimism and algorithms for Germany
 - Explained a proposal for the process and presentation of a new energy plan for Germany
 - Calculated in the direction of the demand and supply concerned reducing CO2 emissions at the macro level
 - Optimized to reduce CO2 emissions
 - Designed to decrease CO2 emissions by 70% in 2040, compared to 1990
